

Objectives

- To serve as a platform in promoting the innovation and invention culture to school and university students, academicians, and professionals from various agencies across Malaysia.
- To serve as a platform for school and university students, academicians, professionals, and the public in sharing, demonstrating, and promoting the latest innovation and invention.
- To serve as an official platform in recognizing and conveying appreciation awards for the achievements and best practices in the latest innovation and invention among school and university students, academicians, and professionals.
- To serve as a platform to cultivate the value of creativity and critical thinking.
- To serve as a platform for assessing participants in communication, skills, and professional ethics.
